

# TRADE GRADE PRODUCTS LTD

## MATERIAL SAFETY DATA SHEET

### **1. Identification of the substance / preparation and company.**

|                            |   |
|----------------------------|---|
| Product name               | TradePUR LTM6 – Part A  |
| Supplier                   | Trade Grade Products Limited  |
| Address                    | 2 Thorne Way<br>Woolsbridge Industrial Park<br>Three Legged Cross<br>Wimborne<br>Dorset<br>BH21 6FB |
| Emergency telephone number | 01202 820177  |

### **2. Composition / Information on Ingredients.**

|                       |       |
|-----------------------|-------|
| Hazardous ingredients | None. |
|-----------------------|-------|

### **3. Hazards Identification.**

Hazard warnings not required.

### **4. First Aid Measures.**

|            |   |
|------------|---|
| Inhalation | Remove patient to fresh air, if recovery is not immediate seek medical advice.                                    |
| Skin       | Remove contaminated clothing. Wash with soap and water.   |
| Eye        | Flush with water for at least 15 minutes under running water with eyelids held open and obtain medical attention. |
| Ingestion  | DO NOT induce vomiting. Immediately rinse mouth and drink plenty of water. Obtain medical attention.              |

### **5. Fire-fighting Measures.**

The material will not support combustion.

Small fires Use carbon dioxide, dry chemical, sand. DO NOT use water extinguisher.

Large fires Use foam or water fog. Keep containers cool by spraying with water.

Fumes evolved in a fire will be mainly oxides of carbon.

### **6. Accidental Release Measures.**

|                           |   |
|---------------------------|---|
| Fire hazard               | Not applicable.   |
| Personal protection       | Floors may become slippery.   |
| Environmental precautions | Do not empty in to drains, sewers or waterways.   |
| Clean up of spillages     | Absorb on to earth or sand and remove to suitable place for subsequent disposal in a labelled sealable container. |

**7. Handling and Storage.**

|          |   |
|----------|---|
| Handling | Ensure adequate ventilation or exhaust ventilation in the working area.                             |
| Storage  | Keep containers tightly closed and dry. No special measures against fire or explosion are required. |

**8. Exposure Controls / Personal Protection.**

|                        |  |
|------------------------|--|
| Respiratory protection | Required in inadequately ventilated workplaces.                                |
| Hand protection        | Wear plastic or rubber gloves.   |
| Eye protection         | Wear chemical resistant goggles.   |
| Body protection        | Change contaminated clothing. Wash hands before breaks and at the end of work. |

**9. Physical and Chemical Properties.**

|                           |                     |
|---------------------------|---------------------|
| Appearance                | Off-white paste     |
| Odour                     | Almost odourless    |
| pH                        | Neutral             |
| Specific gravity          | 1.60 @ 20°C         |
| Flash point               | >200°C              |
| Flammability              | Non flammable paste |
| Vapour pressure @ 20C.KPa | Insignificant       |
| Percentage non-volatiles  | Above 98%           |
| Viscosity                 | Mastic viscosity    |

**10. Stability and Reactivity.**

|                         |  |
|-------------------------|--|
| Thermal decomposition   | No decomposition detectable up to 200°C                                  |
| Hazardous decomposition | Formation of combustible and noxious fumes during thermal decomposition. |
| Hazardous reaction      | None observed.   |

**11. Toxicological Information.**

|        |   |
|--------|---|
| Oral   | Ingestion of small amounts should not cause any serious long term problems. |
| Dermal | Not known.  |

**12. Ecological Information.**

|                  |                         |
|------------------|-------------------------|
| Biodegradation   | Expected to biodegrade. |
| Aquatic toxicity | Not known.              |

**13. Disposal Consideration.**

Disposal of the wet adhesive is governed by the Control of Pollution (Special Wastes) Regulations 1980.

Incinerate only in officially approved incinerator. Emptied containers should be disposed of at incineration plants for domestic or industrial waste.

**14. Transport Information.**

Not classified as hazardous under transport regulations.

Keep separate from foodstuffs.

**15. Regulatory Information.**

No labelling required for this material by The Classification, Packaging and Labelling of Dangerous Substances Regulations 1984 and corresponding EEC directives.

**16. Other Information.**

Other information

This adhesive should be used in accordance with the supplier's recommendations.

The information provided in this data sheet is based on our current knowledge of the product and is intended to describe it for the purpose of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
