Silicone Spray

Instant high gloss spray

General Description

An instant high gloss spray that can be used in a multitude of applications such as an oil, fat and solvent free lubricant, a protective and parting agent as well as a conditioner for plastics, wood, rubber and metals. Can be used safely in food preparation areas. It is a clean lubricating film that is non hardening and resistant to high temperatures. This product protects from oxidation and corrosion, has good electrical resistance and is water-repellent and antistatic.

Uses

Release/Antistick agent; in plastic injection moulding, fibre glass moulding, footwear industry, ceramic ware production, rubber articles and oven shelves not in excess of +315°C.

Instant Spray Gloss Applications; on PVC, upholstery, rubber and plastic trims, wood and metal surfaces and an ideal renovator for car dashboards and vinyl trim.

Lubrication; for most plastic and synthetic/natural rubber or plastic bearing, textiles and fibres.

Application

Surfaces must be clean dry and grease free. Shake the can vigorously.

Hold can upright, approximately 20cm from the surface. Spray lightly over the surface to achieve the required level of finish. Rub with a soft cloth and repeat this operation as required. Do not spray directly onto hot surfaces.

Remove any excess or spilled silicone spray with a dry cloth and wash area with plenty of soapy water. It is the user's responsibility to dispose of all packaging correctly.

Special comments

CAUTION

EXTREMELY FLAMMABLE.

Keep out of the reach of children.

Keep away from sources of ignition - **NO SMOKING.**

Pressurised container.

Protect from sunlight and do not expose to temperatures exceeding +50°C.

Do not pierce or burn even after use.

Do not spray on a naked flame or any incandescent material.

IRRITANT

Use only in a well ventilated area.
